

Date: OCTOBER 4, 1944 Capt. S. S. McNeely, Jr.

SECRET

- 1st Capt. James A. McKinney is appointed Acting Commanding Officer of the 369th Bombardment Squadron.
- 2nd KASSEL
 The 306th flew 36 a/c including 3 PFF a/c as 40th "A" Group. The PFF a/c were flown as lead and deputy of the lead squadron and lead of high. The target was the transportation works of Henschel and Sohn, one of the largest engineering units on the continent. Bombing was by PFF. Pictures show 8/10ths cloud and do not show strikes. Later reports state that the very large boiler shop was severely damaged in one corner, and its roof over half destroyed. Both the large finishing machine and assembly shops sustained heavy roof damage, and fires were burning several hours after the attack. Flak was meager and inaccurate. There was no enemy opposition and P-51s, P-47s gave excellent support.
- 3rd NURNBURG
 24 a/c including 2 PFF plus 2 spares were flown as lead and low squadrons of 40th "A" Group - Lt. Col. John S. Chalfant led. Photos of bombing show no hits through 9/10ths cloud cover, but bomb plots indicate strikes on or very near visual M.P.I. There was no enemy opposition and friendly escort was close all the time. At the target A.A. fire was low and inaccurate, practically all pounding into the chaff trail of groups ahead.
 Capt. Sam S. McNeely, Jr. appointed Station Historian and Station Security Officer.
 A carbine competition match was organized by Major Hostetter to select a 5 man team to represent this group in Division finals.
- 4th Unfavorable weather caused today's mission to be scrubbed and crews attended ground school.
- 5th KOLN and KOBLENZ
 24 a/c including 2 PFF plus 2 spares were flown, 12 as high squadron of 40th "A" and 12 as high squadron of 40th "B" Group. The target was the Ford Motor Co. A.G. The route was as briefed for "A" squadron, but the "B" group followed the lead about 12 miles north of course, being over Koln at 1142. "A" dropped bombs on Koln through solid undercast. Later reports state that at the Nippes Marshalling yard there were strikes on the locomotive depot and repair shops. At the Gereon yards the car repair shop was almost completely destroyed with areas of damage at the car sheds and sidings. Leaflets were dropped over the city. The "B" squadron was unable to follow lead after I.P. due to dense contrails, and temporary weak returns of mickey equipment made a bombing run impossible. After passing over target PFF set returned to full function and bombs were dropped on Koblenz. Flak was moderate and inaccurate, firing into chaff trail. No enemy fighters were seen and P-51s and 47s gave good support.
 Colonel James Sutton, commanding officer, extended an invitation to Basil O'Connor, national chairman of American Red Cross to visit this station and on Tuesday, October 5, 1944, Mr. O'Connor arrived. This is the first station visited by the newly appointed Red Cross chairman who has just come from the United States for the purpose of inspecting American Red Cross installations in the Eastern Theatre of Operations.
 With Mr. O'Connor were Mr. Richard Allen, National Vice Chairman in charge of Service to the Armed Forces and Harvey Gibson, Director of American Red Cross in Great Britain and France.

SECRET

Month of OCTOBER 4 Capt. S. S. McNeely, Jr.

DAY	EVENT
5th (cont'd)	<p>All American Red Cross personnel who performed services to this station were present to greet their officials and to be Colonel Sutton's guests at the luncheon following. These include, Harry Studer, field director, Peg Haapa, Aeroclub director, Betty Bowley and Mary Kate Wheeler, staff assistants at the Aeroclub. Clubmobile girls present were Polly Serber, clubmobile supervisor, Frances Cookson, captain, and Betty Stroud and Elizabeth Turner, assistants.</p> <p>After lunch Mr. O'Connor and party inspected the B-17 piloted by Capt. Hanson, and crew and watched the group formation returning from an operational mission.</p> <p>Doughnuts and coffee were next on the program from the clubmobile which was parked outside of hangar #2 to take care of a horde of linemen.</p> <p>A tour of the Aeroclub wound up the visit. The officials made a complete inspection of the first Aeroclub in existence even down to the kitchen. Mr. Gibson told Mr. O'Connor about opening this AAF #111 club twenty months ago. Mr. O'Connor and party left at 3 o'clock to view a nearby service club.</p>
6th	<p><u>STRALSUND and STARGARD</u></p> <p>36 a/c including 3 PFF were flown as 40th "B" and 12 a/c including 2 PFF flew as lead squadron of 40th "D" Groups. Major Odle was 40th "B" Air Commander and Major Kesling led 40th "D". On approach to I.P. 40th "B" leader received call from Buckeye Red saying that primary was obscured by 7 to 9/10ths coverage. Therefore he turned and attacked Stralsund, PFF last resort, visually. Target was an electric power station. Photos show good results. Leaflets were dropped. The primary target at Stettin for 40th "D" was covered so leader chose to attack Stargard. Strike photos show solid hits on northeast dispersal area of A/D. There was no flak at either target. No enemy fighters were encountered.</p>
7th	<p><u>RUHLAND</u></p> <p>33 a/c plus 3 PFF flew as 40th "B" Group. This was the third successive day of large scale operations and a record day in the history of air warfare against the Reich. The target was the large synthetic oil plant now restored to partial operation. The route was substantially as briefed. The lead and low bombed primary using visual reference points when haze and low clouds obscured aim point. The high, unable to see either primary, secondary or last resort due to intense haze and clouds, bombed T/O at Roszla. There were no enemy fighter attacks but 3 s/e jet-propelled planes were seen in the Leipzig area. Flak was meager to moderate, tracking - starting low and gradually carrying up to altitude. Several a/c landed at base with only 30 gallons of gasoline in each tank, while others were forced to land at other fields in England. Major Flannagan, C.O. of the 367th, led.</p> <p>Six a/c of 306th were assigned to Air-Sea Rescue mission with 3 planes to search area "C" and 3 area "D". No observations were made in search areas, but radio operator of a/c 438-U, pilot Risk, picked up message giving a bearing and the formation flew to 5320N-0305E, gee fix, where at 1050 hours and airborne lifeboat with a white sail containing 7 to 9 men was seen. SOS was sent out giving lifeboat position. The formation then circled the boat until 1232 hours when two rescue launches arrived and took the men aboard.</p> <p>The monthly Group dance was held at "B" Mess.</p>
8th	<p>Crews were briefed to bomb the synthetic oil plant at Brux, but the mission was scrubbed before take-off due to adverse weather conditions.</p>

Month of OCTOBER 1944 at Capt. S. S. McNesly, Jr.**SECRET**

DAY	EVENT
9th	<u>SCHWEINFURT</u> 36 a/c including 3 PFF were flown as 40th "A" Group to bomb the ball bearing works at Eberhausen. En route the weather ship informed that primary was covered by 10/10ths cloud. Bombing was by instruments on assigned PFF target. Plotted scope pictures indicate very good bombing on a small difficult target. Lt. Col. Salada was Air Commander. No enemy air opposition was met. Flak was encountered at the target where it was meager and low, presumably due to chaff. Support by P-51s and P-47s was excellent.
10th	Crews were briefed to bomb the FW plant at Bremen. Mission was scrubbed. At 1400 hours the a/c took off on a practice gunnery mission. Capt. Lester G. Williams appointed acting Station Ordnance Officer vice Major Thurman E. Dawson, relieved. 1st Lt. Hubert R. Jones appointed Station Courts and Boards Officer.
11th	Crews attended a full day of ground school when a practice mission was scrubbed because of unfavorable weather.
12th	Unfavorable weather conditions prevented an operational mission but group flew a practice mission.
13th	Captain McKim, Flight Surgeon was transferred to the 457th Bomb. Group to take up duties as Group Surgeon. Today's target was the important marshalling yards at Koln, through which passes a great portion of the supplies to the western front. Briefing was postponed from 0400 hours to 0800. At 1000 hours the mission was scrubbed - weather. An attempt was made for a practice mission. This also was scrubbed.
14th	<u>KOLN</u> 30 a/c including 3 PFF plus 3 spares flew as 40th "C" Group. Target was one of the important marshalling yards, particularly the goods locomotive depot. The weather was 6/10ths undercast at the Belgian coast and increased to 10/10ths over target. Bombing was by instruments. Leaflets were dropped. No enemy aircraft were seen and friendly fighters gave excellent support. Flak was accurate and intense. Battle damage was two severe, three slight. The 423rd Squadron gave a dance at "B" Mess for officers.
15th	<u>KOLN</u> 22 a/c plus 2 PFF plus 2 spares flew as lead and low squadrons of the 40th "B" Group. The target was 5/10ths overcast and further obscured by smoke screen and smoke from previous bombing. A PFF run was started but lead a/c was hit by flak and temporarily knocked out of control and deputy took over with about 30 seconds to go, dropping on smoke of previous bombing. The low, locating itself by the river dropped on an unhit built up area. No fighters seen. Flak was accurate and intense over target, resulting in three a/c failing to return. Lt. Doman, one of the missing landed at Brussels and returned a few days later. Lt. Ritter had the nose of his plane shot off over the target and was last seen going down. Lt. Moroz was last seen under control with #2 and #4 engines out. Sgt. Hardin received a serious leg wound. 1st Lt. A. G. Damico, Jr. was appointed Group PFF Navigator.
16th	Crews attended ground school in the morning and flew a practice mission in the afternoon.

SECRET

Month of OCTOBER, 1944, Lt. Col. Capt. S. S. McNeely, Jr.

SECRET

DAY	EVENT
17th	<p><u>KOLN</u></p> <p>33a/c plus 3 PFF flew as 40th "A" Group. Route was substantially as briefed. The Group made its third trip to KOLN within four days and again had the marshalling yards for both visual and PFF aiming points. The target was entirely covered, and the large M/Y in the east central section of the city was bombed PFF. Scope photos indicate bomb strikes starting in the built up area to the west and south of the M/Y with a good possibility of the bombs walking across the yards. Lt. Col. Salada was Air Commander. A.A. fire was a moderate barrage and tracking for 7 minutes. Battle damage was 2 slight, 5 severe. All a/c returned. No enemy fighter opposition was seen.</p> <p>Major Thomas P. Witt is appointed Group Operations, vice Lt. Col. Robert C. Williams.</p> <p>Capt. Donald R. Ross is appointed Group Bombardier, vice Major Walter H. Coons.</p> <p>Major E. W. Mesling is appointed Commanding Officer of the 367th Squadron, vice Major Charles E. Flannagan.</p>
18th	<p>Today's target was the Henschel Works at Kassel, one of the largest engineering units on the continent. Take-off time was 0706 hours, and the mission was scrubbed at 0705 hours. Crews were briefed for a practice mission but this too was scrubbed before take-off.</p>
19th	<p><u>MANNHEIM</u></p> <p>24 a/c including 2 PFF were flown as lead and low squadrons of 40th "A" Group to attack the Ordnance Depot at Mannheim. Colonel Sutton, Group C.O., led the First Bomb. Division, flying with Capt. Thompson. Weather conditions were very poor at take-off and all along the route. At the target clouds were up to 20,000 feet and contrails gave considerable trouble. Both visual and PFF targets were cloud covered - bombing was PFF through dense contrails. Strike photos show enough ground detail at bombs away to indicate hits very close to the M.F.I. No enemy fighters were seen. Fighter Support was only fair with 15-20 minute gap just after target. A.A. fire was moderate to intense accurate tracking and barrage, which damaged 23 out of 24 a/c. Capt. Murphy, deputy leader, was hit by flak just before target, lost 2 engines and ailerons were severely damaged. He left formation at target, came home alone, and landed safely with 2 engines and a flat tire.</p> <p>Other crews flew an interesting practice mission to Farnborough, England, to test the effect of discharging chaff on a captured German radar set. Also to try out "Razzle Dazzle" maneuver on discharge of chaff. Four runs were made over target as follows: 1. No discharge of chaff in order to see what would be picked up on the Radar screen; 2. Discharge of chaff by radio operators; 3. Discharge of chaff from bomb bays "Razzle Dazzle" style; 4. First group discharge chaff to first range of gun, then turn from target and make a bomb run. Information has been received that the results were very interesting and informational.</p>
20th	<p>Crews were weather-bound and spent the day attending ground school.</p>
21st	<p>Unfavorable weather conditions continued and crews attended ground school and a training film "Resisting Enemy Interrogation". A practice mission was scrubbed.</p> <p>The Station Alert Detachment, A.A. Detachment, Mobile Striking Force, all Ordnance and 876th Chemical Co. personnel ordered to report to Post Theater at 0830 hours Sunday, 22 October to attend a school on Miss and Booby Traps.</p> <p>Major G. Oils, 368th Sq. Operations officer departed for F. of I.</p>

SECRET

SECRET

- 26th BIELEFELD
 24 a/c including 2 PFF flew as high squadrons in 40th "A" and "B" Groups. Also 12 a/c including 1 PFF flew as a chaff screening force on a "Razzle Dazzle" mission. The target was the Ordnance Storage Depot. The route and target were covered with 10/10ths cloud and bombing was PFF. Leaders stated that PFF equipment worked satisfactorily and bombs were released to hit the eastern part of city, trailing across the depot. FRU evidence verified this, showing about 50 percent of depot destroyed. There was no enemy air opposition. P-51s gave continuous support. Leaflets were dropped. Of the 12 a/c in the screening force each carried 50 boxes of chaff and proceeded to Munster, circling the city, dropping all chaff and returning to base. No flak or enemy a/c were encountered.
- 27th At 0300 hours the Group was alerted after a previous standdown; an order came in at 0200 hours and was scrubbed at 0230. During the morning crews attended ground school and flew a practice mission in the afternoon.
- 28th Unfavorable weather conditions prevented flying and crews attended ground school.
 Capt. Seymour D. Ramby appointed Station Legal Assistance Officer.
- 29th Bad weather continued and crews were shown a training film at the theater.
 1st Lt. G. A. Spencer appointed Group PFF Navigator, vice 1st Lt. A. G. Damico, relieved.
 Major James M. Venable, Jr. appointed Station Reciprocal Aid and Lend-lease Reporting Officer.
 Officers dance planned for November 11th at "B" Mess.
- 30th MUNSTER
 36 a/c including 3 PFF plus 3 spares flew as 40th "B" Group to bomb primary target of synthetic oil plant at Gelsenkirchen-Nordstern, but en route they were informed that 10/10ths cloud covered the target, so formation proceeded to PFF target, rail transportation center at Munster. Haze, ice, dense persistent contrails, and cirrus clouds interfered with formation flying and crews were on instruments most of the time. Lead squadron bombed what mickey operator believed was south of Munster. High made separate run to left of lead and dropped in north part of city. Because of extremely bad visibility low became separated from formation and since it had no PFF equipment, returned all bombs to base. No enemy fighters were seen. P-51s and P-47s gave all support possible under existing weather conditions. No damage received from flak.
 Capt. Phil G. Kraft appointed Station Claims Officer, vice Major D. M. Eckstein, relieved.
- 31st Today crews were briefed at 0430 hours for one of the longest missions of the month, but it was scrubbed just prior to take-off. The weather was briefed as cumulus, cirrus, and heavy persistent contrails in the target area and at altitude. A practice mission was flown in the afternoon.

SECRET

Month of OCTOBER 1944 Issued by Capt. E. S. McNeely, Jr.

SECRET

DAY

EVENTS

31st

GENERAL -

This month fourteen missions were flown, bombing military installations vital to the Nazi, while the Allied Armies at the frontiers of the Reich probed deeper into German defenses. Only 2 missions were visual with the remaining 12 PFF. Of the visual sightings results were good on one and fair on the other. Although results were unobserved on the PFF missions, breaks in the clouds in many cases and landmark identifications plus scope photo plotting indicate that good results were obtained. All missions for the month were strategic and no operations in support of ground troops were undertaken. Adverse weather caused many missions to be scrubbed. The group dropped 1152 tons of bombs, flew 3932 hours operationally - 1676 hours non-operationally, bringing the grand total to 13819 tons of bombs dropped and 72,918 hours flying time. To date 160 A/C have been lost to all causes.

MARRIAGE -

Congratulations to Major Thos. M. Hulings, C. O., on the occasion of his marriage to Capt. Katherine E. Young, WAC, at 1430 hours, 24 October, 1944, in St. Saviours Church, London (Scotch). The Reverend Murchison, uncle of the bride and pastor of Church of Edinburgh (Scotland) officiated. Their honeymoon was spent in London and Torquay. The lovely bride is originally from Providencetown, Mass. Having joined the service in 1942, she is now Commanding Officer of the 8th Air Force WAC Detachment at Pinetree. Major Hulings entered the service on active duty in 1941, and came to the E.T.O. with one of the first groups, (92nd) which operated from Bovington. His first mission was Lille, October 9, 1942. In May, 1943, he was transferred to Alconbury, and in September reassigned to Podington, where he completed his first tour of operations, October, 1943. During the North African invasion Major Hulings piloted General Spaatz. In addition to flying B-17's he flew with the 8th A.F. Mosquito Recon. Unit.
