Dear Russ:

It was good hearing from you, but I am embarrassed that I can't help you with the door gasket that you requested.

We do make a gasket for that refrigerator, our part 9301. The problem is that we have been out of stock for months and have absolutely no demand for the part and probably will not run it again until somebody for some reason places a substantial order. I will put it into our file and if and when we do run it, you may be sure you will receive one.

I am looking forward to seeing your book and you may be sure you will have a customer here.

Please let me know when you are coming to Chicago again. I would enjoy lunching with you.

Again, sorry I cannot help.

Sincerely,

*Stan*

Dear Stan:

Writing for myself, and for Don Ross and Reg Robinson,  
let me express our thanks to you for your recent gift  
to the 306th BG Project Fund.

We appreciate your interest in the Association, and sincerely hope that in some future year you may join us in a bit of reunion fellowship. You will be hearing further from us on the fund.

Sincerely-yours,

William F. Houlihan  
President

Dear Russell;

I have a new name for your records. Two nights ago I received a call from

Abe Seidman  
102 Stockweather  
Moosup, CT 06354

Abe reminded me that he was an oxygen man in the 367th when I was the engineering officer there.

He had not been aware of the 306th BGA , and I told him I would send in his name.

I remember the day ...how many years ago... when you were gathering information for the Association and you came out to my office in Chicago. We talked, had lunch and then I think we got together once again.

I sold my business and retired in August '92 and have been enjoying my retirement ever since.

You , and the others who have worked with you, have done a fine job and are to be complimented.

Regards,

Stan Jarrow

Dear Stan:

Today was my 74th birthday, and as I was sorting through greeting cards, I was startled, and then delighted, to find a letter from you.

What made it even nicer was that you added the only new name that has come to the 306th in the past three or four months. New finds are just hard to come by. I am sure there are several hundred out there, but they are now hiding very well.

I hope that you are in great good health these days and that you and your wife are enjoying retirement to the utmost. We are certainly trying to do that. Its just that delightful events are separated more often by doctor visits and the like. My health remains good, but I do have to take an annual physical, and I just bought a new batch of pills that help in trying to control my blood pressure. Other than that I am fit. My main complaint these days is that I don't remember some things as well as I would like to.

This week I am supervising some construction work about the place, and I ought to get Echoes off to the printer. Had a first call today wanting to know if we were still publishing, and I hope that we can continue for some years yet.

You and your wife ought to hop a plane to Savannah early next December, and come to our reunion there. We have a delightful hotel on the Savannah Rivere, and I think you would find the new 8th AF Museum a delightful place to meander.

My best to both of you,
