

August 18- 1944.

SUBJECT: Letter of reccomendation.

TO: Whom it may concern.

For some twelve months T/Sgt Henry Larwig has been 1st engineer on my B-17 crew. During that time he has been an ideal engineer gunner and has saved the day for us more times than I care to remember.

He has always carried out instructions perfectly and cheerfully. For my money he was the best engineer in the Eighth Air Force.

Being excellent officer material and having always wanted to be a pilot he should be given a chance now for Aviation Cadet training.

Walter H. Keilt
1st Lt. A.C.
Crew Commander.
