

In Donald H. White's scrapbook, a copy of which he prepared for each of his children, were 2 pages on which he placed copies of individual photographs (4 per page) of 8 of the crew mates with whom he flew. Scans of those 2 pages follow this sheet, showing:

Bombardier Carl M. Frantz of Clinton, IN
Engineer/Top Turret Carl R. Kalbach of Lebanon, PA
Radio Operator Raymond P. Decker of Maine
Ball Turret Phil Mundell of New York

Right Waist Gunner Kenneth D. Simpson of Massachusetts
Left Waist Gunner Gerald E. Weaver of Oregon
Tail Gunner Frederick J. Kappan of Buffalo, NY
Ball Turret Leslie J. Johnson [no location listed by White]

All of those men except Kappan and Johnson, also appear in White's scrapbook in a group photo that was taken in Aberdeen, Scotland, which appears at 306bg.us under "Air Crew Photographs" as a 'crew' photo for 369th pilot William Hilton; also in that group photo are Donald H. White, navigator, and the 369th Squadron Engineering Officer – 'Mike' Robert E. Michaelis, who was with them in Scotland. A copy of that group photo is below for reference.
